V7 NETWORKING

5-Port Unmanaged 10/100 Networking Switch

Take the next step in connectivity speed and efficiency at your home or small business. Add the V7 5-Port Unmanaged 10/100 Ethernet Networking Switch to connect multiple computers as well as cameras, print and media servers, storage devices, VoIP phones and more to an Ethernet or wireless LAN. Unlike a conventional hub, the V7 networking switch offers dedicated bandwidth for every computer or device. It is ideal for small or growing networks requiring reliable and affordable network performance.

All V7 switches are standards based, fully compatible with existing 10/100/1000 network infrastructure, and are easy to install and use. This black plastic model is perfect for sitting unobtrusively on a desktop.

Specifications:	
V7 Model #:	NS0132-N6
Design:	5-Port 10/100 Unmanaged Ethernet Networking Switch
MAC Address Table:	Supports 1K MAC Address
System Requirements:	Network Card for Each Computer Category 5 Networking Cables Windows, MAC or Linux
10/100BASE-TX Ethernet port:	Compliant to following standards, Fully compliant with: (1) IEEE802.3 10BASE-T (2) IEEE802.3u 100BASE-TX Supports auto-negotiation in the following operation: (1) 10/100M operation (2) Full/Half Duplex operation (3) IEEE 802.3x compliant Flow Control supports for full-duplex operation (4) Back-pressure supports for half-duplex operation Support Auto MDI/MDI-X
LED status lights for port operations:	1. Per Device: Power indicator 2. Per port: 1 LED Solid Green – Link Blinking Green – Activity
Dimensions:	94.9(L)*77.9(W)*28.2(H) mm
Warranty:	1 Year
Country of origin:	China
